

SPONSORSHIP OPPORTUNITIES

Global Security Exchange (GSX) 2019

InfraGard is a partnership between the FBI and the private sector. It is an association of persons who represent businesses, academic institutions, organizations, state and local law enforcement/public safety agencies and other critical infrastructure participants dedicated to sharing information and intelligence to prevent hostile acts against the United States. Each InfraGard Members Alliance (IMA) is geographically linked with an FBI Field Office, providing all stakeholders immediate access to experts from law enforcement, industry, academic institutions and other federal, state and local government agencies.

By harnessing the talents and expertise of the InfraGard network, information/education is shared to mitigate threats to our nation's critical infrastructures and key resources, and to develop resiliency. Collaboration and communication are the keys to protection and resiliency. Providing timely and accurate information to those responsible for safeguarding our critical infrastructures, especially at a local level, is paramount in the fight to prevent attacks and protect the United States and its resources.

This year's GSX and InfraGard Training Conference will take place from **September 8-12 in Chicago, Illinois** and will again be co-located with the security organizations *ASIS International* and *Information Systems Security Association (ISSA)*, bringing in over 20,000 participants from across the United States and from around the world.

By showing your support of InfraGard and our mission, you will shine brightly to a national audience of nearly **60,000 individuals** and their organizations, which have shown themselves to be firm supporters of our goals and mission. Your support of our Annual Congress and Training Conference will not only further our goals but will allow you to communicate that support to a large, engaged audience. As an exhibitor in Chicago, you will have an on-site audience of more than 20,000 security and infrastructure professionals.

We are excited and hope you will consider joining and supporting us in Chicago as a proud sponsor of **InfraGard**—and a contributor to the protection of our national security and critical infrastructure.
